Phone # (advisor) _____

¹Include a brief description of the grading system including the maximum possible grade on a separate page.

²It is required that the student be engaged in research/studies for at least 12 months after the fellowship award.

Additional documents needed:

1. Research plan: a single page document which includes the research topic and describes, in sufficient depth, the research being conducted. If this is a multi-student project, this document must clearly identify the goals of the project and the **specific contributions** of the applicant in **adequate** detail.
2. Curriculum vitae.
3. A reference letter for the **applicant from** the faculty research supervisor.
4. Brief description of the grading system used to rate the academic performance of the applicant.
5. The final version of the paper accepted at EuMIC-2019 in which the applicant shall be the first author.
